

# DocSearch

Identify even more opportunities searching within bid specifications.

## Summary

Run queries across millions of active and historical specifications, tabulations, and awards exclusively hosted by BidPrime. [DocSearch](#) seamlessly integrates with [Docs on Demand](#) to provide you with instant access to view and search newly released opportunities and bid documentation.

BidPrime is the only source on the market with [DocSearch](#). This feature will enable you to quickly scan pages of text within the documents for your keywords and search terms. Document text searching will speed up your process and save you time for the more important items on your to do list.

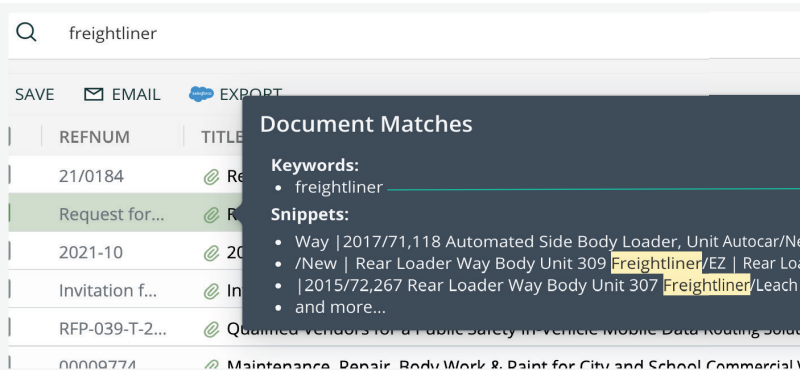

## Search Key Contract Terms

Specific products/services  
Line items  
Brand names  
Competitive vendor data

Budget items  
Prebid conferences  
Bond/surety requirements

## Key Benefits

- › Find specific brand names and relevant line items within documents.
- › Reduce time wasted scanning long documents with highlighted text search.
- › Provides instant access to public PDF and Doc files.
- › Preview, search, scan, and download bid documents.
- › Significantly increases productivity in a normal business day.
